Professional Summary

Recent Computer Science graduates with a robust foundation in software engineering, proficient in both front-end and back-end technologies. Experienced in Agile, Scrum, and MVC design methodologies. I also possess a solid grasp of the essentials in MySQL queries and PHP, laying a sturdy foundation for web development endeavors. With strong communication and dynamic problem-solving skills, I thrive in high-pressure environments, making a valuable contribution to innovative projects and team efforts. Actively seeking an opportunity with a highly regarded organization that values dedication and attention to detail. Eager to leverage technical expertise to contribute to innovative projects and collaborate in dynamic team environments.
